Fight Voter Fraud, Inc. Uncovers Nearly 300,000 Double-Registered Voters, Exposing 3,170 Cases of Double Voting Nationwide from 2016–2022

Middletown, CT, July 25, 2024 — Fight Voter Fraud, Inc. has conducted a comprehensive analysis of voter registrations across the United States, uncovering 297,856 voters registered in two or more states. Among these, 3,170 individuals cast more than one vote in elections held between 2016 and 2022.

Utilizing a proprietary SQL database, Fight Voter Fraud, Inc.'s voter roll data analysis program compared information from those who filed a change of address through the National Change of Address (NCOA) system. This cross-matching of voter rolls with other commercial data verified the dual registrations. The data excludes individuals who did not file a permanent change of address with the NCOA, indicating that the actual numbers could be significantly higher than reported. Since launching this program, FVF, Inc. has received requests for data breakdowns from organizations in thirty states. Detailed analysis for each state is available.

Federal law prohibits providing false information when registering to vote and voting in multiple locations during any federal election, classifying double-voting as a felony offense. States also prohibit casting more than one vote in an election, also classifying this as a felony.

Under 52 U.S. Code § 10307 (c) and (e), several acts related to voting and registration are prohibited, including:

- (c) False information in registering or voting; penalties: Whoever knowingly or willfully gives false information as to his name, address or period of residence in the voting district for the purpose of establishing his eligibility to register or vote, or conspires with another individual for the purpose of encouraging his false registration to vote or illegal voting, or pays or offers to pay or accepts payment either for registration to vote or for voting shall be fined not more than \$10,000 or imprisoned not more than five years, or both.
- (e) Voting more than once (1) Whoever votes more than once in an election referred to in paragraph (2) shall be fined not more than \$10,000 or imprisoned not more than five years, or both.

Every double vote is a form of disenfranchisement for voters legally casting their votes. Fight Voter Fraud, Inc. is committed to "One Vote For One Legal Voter"™. The data from FVF, Inc. is straightforward to verify, and we urge election officials nationwide to take immediate action.
